CAELI Green Ribbon Network Overview: The purpose of the California Green Ribbon Network is to give participants the chance to connect, inspire, and share best practices for achieving success with the California Green Ribbon Schools (CA-GRS) application. *This network both supports schools/districts/COEs to succeed on the application itself, AND because the application is really about capturing and reflecting progress during a certain point in time the topics covered in this network will be broad and geared towards supporting school communities to take action on the CA-GRS Pillars.*
